Project Name: WAGENER AVENUE STORM DRAINAGE IMPROVEMENT PROJECT - PRE-QUALIFICATIONS
Project Number: 050362-58240
Location: Charleston, SC
Description of Project: The City of Charleston Department of Public Service (Owner) requests General Contractor (Contractor) Pre-qualification Proposals for construction of the Wagener Avenue Storm Drainage Improvements (Project). The project consists of the installation of a Cured-In-Place pipe (CIPP) rehabilitation lining composed of a resin-impregnated flexible tube that is either inverted or pulled into the original pipeline & expanded to fit tightly against said pipeline by the use of water or air (steam) pressure. The quantitative scope of work will include Cured-In-Place pipe rehabilitation lining of approximately 220 linear feet of 18-inch diameter storm drain sewer; 420 linear feet of 24-inch diameter storm drain sewer; storm structure repair/replacement, storm drain point repairs, & ancillary work.

An alternate to the project scope includes slip-lining the existing 24-inch storm drain with a new 18-inch butt-fusion weld HDPE pipe instead of the CIPP lining. Due to the depth of the existing storm piping, the system is subject to coastal tidal fluctuations. As a result, the Contractor should be familiar with working in the coastal area where work schedule & work methods are adapted to the daily tidal cycles.

Because of the complexity of the project, the Owner has determined the necessity to pre-qualify Contractors. The purpose of the pre-qualification process is to select those Contractors that the Owner deems to be qualified & capable of completing the Project

in conformance with the Contract Documents. Copies of the General Contractor Prequalification Requirements may be obtained by contacting the project manager listed below.
