The primary responsibility of SC Building Codes Council is to accept all requests for variation from the series of codes listed in Chapter 9 of the regulations and to determine which variations, if any, are justified by local conditions and can be enacted after a finding on the record that the modification provides a reasonable degree of public health, safety, and welfare.

The South Carolina Council of Engineering and Surveying Societies is charged, by law, to make recommendations to the Governor from which she must appoint the qualified candidate to the SC Building Codes Council.

The South Carolina Council of Engineering and Surveying Societies is accepting letters of application from Professional Engineers who meet the state's minimum requirements that wish to be considered for the SC Building Codes Council position. It should be noted that the incumbent, Greg Parsons, current Council Chairman, has requested to be reappointed for another term.

The following information should be included in interested engineers' letters of applications: education and collegiate achievements, engineering achievements, professional and technical society activities, civic and humanitarian activities, continuing competence, professional experience, general personal data, and references. Applications with the above information may be submitted by hardcopy or electronically. Applications should be submitted to the SC Council of Engineering and Surveying Societies, c/o Jones, McAden & Associates, PO Box 11937, Columbia, SC 29211-1937 or joe@jma-associations.com.

VENDORS, DON'T NEGLECT TO CHECK THE STATE'S FIXED PRICE BIDS

If authorized by the original solicitation, the State may use "competitive fixed price bidding" to create procurements with an open response date. These fixed price bids are advertised in SCBO once, but the solicitation may provide for bids to be accepted continuously or periodically during the contract term. The links below take you to a listing of all open solicitations conducted by the central purchasing office using the competitive fixed pricing bidding rules.
