Consultant / Professional

Description: NATURAL GAS MASTER PLAN FOR Horry COUNTY -- The Myrtle Beach Regional Economic Development Corporation (MBREDC) is serving as the lead organization in developing a plan for the feasibility and ultimately the possible financing, construction, and organization of natural gas infrastructure, along with transportation capacity, in and around Horry County, South Carolina. The County is limited in its access to natural gas for industrial customers in many areas throughout the County; and current natural gas providers are either reluctant to and/or are restricted from expanding natural gas infrastructure to key industrial sites and/or parks in the County without firm, dedicated customers. Due to this lack of natural gas infrastructure and transportation capacity, the MBREDC and its partners believe that many economic development projects (manufacturing-related industries and its respective job creation and capital investment) have been lost and thereby decreased the long-term economic vitality of the County.

The purpose of the Natural Gas Master Plan is multifaceted:

1. Evaluate the overall feasibility of expanding natural gas service into and around Horry County;

2. If feasible, develop an overall vision and documented plan for the expansion of natural gas in Horry County, including, but not limited to:
 - o Evaluation of several routes through the County and to specific industrial parks/sites for new natural gas infrastructure; and
 - o Estimate the overall cost and timeline for the expansion of natural gas infrastructure in each scenario;
 - o Develop a strategy to finance the construction of the infrastructure and other associated costs related to the expansion of natural gas into and around Horry County; and
 - o Provide scenarios for payback of financing, and other costs, related to the natural gas expansion for any public or private partner involved;
3. Highlight any federal, regional, state, and/or local regulations, laws, or issues related to the expansion of natural gas into Horry County.

Project: To sell state-owned property located at 1401 Senate Street, 1429 Senate Street and 2221 Devine Street in Columbia, South Carolina, and procure alternate space to relocate the current tenants.

Solicitation Number: TBD

Project Description: Based on the recommendations contained in the Comprehensive Real Property Evaluation, Strategic Planning and Implementation Report prepared for the South Carolina Department of Administration (Admin) by CBRE, the State will be issuing a Request for Proposals to sell state-owned property located at 1401 Senate Street, 1429 Senate Street and 2221 Devine Street in Columbia, South Carolina, and to procure alternate space to relocate the current tenants.

A RFP is being developed and the specifications will provide an opportunity to bid on purchasing any or all of the buildings and land and/or providing alternate space for any or all of the current tenants. Options for providing alternate space will allow for a range of options including, but not limited to, market lease, market purchase, and build to suit on either state owned or private land. The disposition of the properties and acquisition of new space will be broadly marketed to allow all interested parties the opportunity to respond.

Admin anticipates issuing the RFP in the fall of 2016. The State encourages competition and seeks qualified respondents. Therefore, if you would like to be notified when the RFP is issued, please provide your contact information via email to Jason Evans, Procurement Director for Admin, at Jason.Evans@admin.sc.gov. Please use the subject line "State Building Disposals and Tenant Relocation RFP."
